11 OCT 1977

MEMORANDUM FOR: Acting Deputy to the DCI for the
Intelligence Community

FROM: Director of Central Intelligence

I understand that OMB is doing a reorganization study entitled, "National Security Affairs Integration." OMB is to chair it, Defense is to play a large role in it, as are State and the NSC. Would you ask someone to look into this and whether we don't properly need to be represented on it in some way.

MEMORANDUM FOR:

FROM: Director of Central Intelligence

About a month ago, there was an article in the New Yorker magazine concerning why we may be hurting Britain by trying to help them too much. The thesis was that Britain should get down to size rather than trying to ride on our coattails as a pseudo major power. Would you see if you could find this and check it out?
